in this concise scholarly work mohammad ali shomali outlines the distinguishing features of the twelver shia school of islamic thought which is based on the teachings of the household of the prophet he focuses on the textual sources of shii thought and the leading doctrines of shiism both those which are shared with other muslims and those that are unique to shiism such as the

emphasis on divine justice the imamate and the infallibility of the imams concluding with a useful survey of shia demographics devotional practices and holy sites this readable work answers many common questions about the origins history and beliefs of shii muslims with an emphasis on spirituality and rationality timely and relevant given the focus on shii muslims in the world media today

this is an anthology of the most significant writing on the doctrinal intellectual and spiritual dimensions of shicism the works included here foster an interpretive understanding of shicism in its dogmatic and cognitive aspects the intent of this book is to balance the attention that has been focused on the political aspect of shicism shicism is often seen not only as an essentially political phenomenon but as a creed of violence understanding shicism in its total reality will encourage a more balanced approach to issues which are viewed mostly politically while not denying the importance of political manifestations this book offers an understanding of the often neglected religious beliefs and spiritual practices of this world community

this text considers the religious differences within the world of islam and examines the evolution of the shi a tradition and western scholarship on the subject it also considers key terms and concepts in shi a tradition and legal and doctrinal thought

sheds light on the political sociological and ideological processes that are affecting the dynamics of sunni shia relations

shi ism emerged with the martyrdom of husayn b ali at karbala this tragic event is accepted as the origin of shi ism in the history of islam it is still commemorated by shi ites during the month of muharram

listed in today s books book register as a must read title this book is really a manual that every therapist should have if he or she does not already have the knowledge and insight contained within its pages infinitely enjoyable psyccritiques religious upbringing influences people in ways that are difficult or impossible to describe this book provides a window on their world the psychologies of religion examines the thinking personality and development processes as well as specific clinical concerns of clients who are members of particular religious groups each contributing author brings dual expertise to their chapters expertise about a particular religion and psychological sophistication a look from the inside out in addition the book covers possible future religious development as spiritualism beings to replace institutional religion and as religious choice replaces religious constraint all therapists who want to understand how religious people really think will find this book helpful

this book investigates the role of the qur an in the everyday lives of young shia muslims in finland adopting a cultural psychological perspective on islamic scripture the book approaches the qur an as a symbolic resource that young muslims can draw on to find guidance and support to reflect on the meaning and purpose in their lives or to experience community with other believers the book emphasizes the variety of ways in which young shia muslims relate to the scripture bringing to life the various ways in which young shia muslims grapple with a text

that is difficult to understand and try to construct a meaning that makes it relevant in the context of contemporary finland this book provides a novel approach to the religious lives of a little known religious minority in addition it brings together fields that have so far been largely separate in particular cultural psychology and islamic studies as such the book provides a valuable resource to scholars interested in lived religion religious minorities islam in europe sacred texts as well as culture and human mind

this innovative book analyses the relationship between religion and politics in the middle east through a comparative study of five countries egypt israel turkey iran and saudi arabia robert d lee examines each country in terms of four domains in which state and religion necessarily interact national identity ideology institutions and political culture in each domain he considers contradictory hypotheses some of them asserting that religion is a positive force for political development and others identifying it as an obstacle among the questions the book confronts is secularization a necessary prerequisite for democratic development how is it and why is it that religion and politics are so deeply entangled in these five countries and why is it that all five countries differ so markedly in the way they identify themselves and use religion for political purposes the book argues that the nature of religious organization and practice in the middle east must be understood in the context of individual nation states the second edition is updated throughout and includes an entirely new chapter discussing the political and religious climate in saudi arabia earlier introductory analysis has been condensed to make room for new material and chronologies at the end of each chapter have been added to help students understand the broader context the second edition of religion and politics in the middle east is a robust addition to courses on the middle east

list of members in each volume

during the formative period of islam in the first centuries after muhammad s death two particular intellectual traditions emerged sunnism and shi ism sunni muslims endorsed the historical caliphate while shi i muslims supporters of ali cousin of the prophet and the fourth caliph articulated their own distinctive doctrines the sunni shi i schism is often framed as a dispute over the identity of the successor to muhammad whereas in reality sunni and shi i muslims also differ on a number of seminal theological doctrines concerning the nature of god and legitimate political and religious authority this book examines the development of shi i islam through the lenses of belief narrative and memory it also covers a wide range of shi i communities from the demographically predominant twelvers to the transnational isma ilis to the scholar activist zaydis the portrait of shi ism that emerges is that of a distinctive and vibrant community of muslims with a remarkable capacity for reinvention and adaptation grounded in a unique theological interpretation of islam
